

Summer Savings Stampede!

**SAVING MONEY AND SAVING ENERGY
IT'S AS EASY AS 1- 2 -3**

1

THE GREAT REFRIGERATOR ROUNDUP

- Do you have an old energy guzzling fridge?
- Want to save energy and save money?
- Is the fridge at least 10 years old, 10 cubic feet and still working?
- If you answered YES to all of the above questions -
For your free pick-up and disposal of that old fridge
Call 1-877-797-9473 or visit www.everykilowattcounts.com

SUMMER SAVINGS—10/10

- Customers that meet the Ontario Power Authority's eligibility criteria are automatically registered!
- We compare your electricity usage July 1 — August 31/07 with same time frame last year.
- After a weather correction factor is applied, if you have saved 10% in electricity usage, you will see a 10% credit on your bill.
- Toronto ran this program as a pilot last year. Average credit to eligible customers was a \$17.44 credit!

3

peakSAVER™

- Customers enroll to have a programmable thermostat installed in their home.
- The thermostat has a computer chip in it — that allows it to be remotely turned up on critical days.
- Customers get the thermostat, a thank you cheque for \$25.00 and are helping reduce the strain on supply on critical days.
- Over the course of the summer, your central air conditioning may be remotely turned up.
