**CAMBRIDGE AND NORTH DUMFRIES HYDRO INC.**

## COMMERCIAL AND INDUSTRIAL BUSINESS RATES EFFECTIVE MAY 1, 2010

### **SMART METERS HAVE ARRIVED!**

By July 2010, every Cambridge and North Dumfries Hydro residential and small commercial customer will have a Smart Meter installed at their property.

Yes! You will have a Smart Meter in 2010, but how you get billed for your electricity won't change in 2010. You will continue to be billed electricity based on the Ontario Energy Board's approved Regulated Price Plan Rates – or – based on the rates negotiated with a Retailer contract.

Sometime in late 2011 we will introduce "Time-of-Use Pricing" for electricity to our customers. Rest assured, we will provide you advance notice and information to help you take advantage of Time-of-Use Pricing. Learn more at: [www.camhydro.com](http://www.camhydro.com)

### **WATER AND SEWER BILLING UPDATE!**

Effective October 1, 2010 the City of Cambridge and Region of Waterloo will start to bill customers directly for water and sewer charges. You will be provided with advance notice and information on the change in the coming months.

The electricity industry is changing. As a consumer of electricity and a resident of Ontario, it is important that you understand Ontario's electricity generation mix. This information will enable you to gauge the environmental factors that play a role in the generation of electricity in Ontario.

### **Ontario's Electricity Generation Mix\***

| Electricity Sources | System-Wide Electricity Generation Mix (2007)* |
|---------------------|--|
| Nuclear Energy      | 52%  |
| Coal                | 18%  |
| Water Power         | 21%  |
| Natural Gas         | 8%   |
| Wind                | 1%   |

\* Estimated 2007 Electricity Generation Mix (IESO) as published on the Ministry of Energy website

**CAMBRIDGE AND NORTH DUMFRIES HYDRO INC.**
